PERSONAL SUMMARY

Master's student at the National University of Defense Technology working on human-AI interaction and empirical evaluation of AI-mediated systems. Research experience spans AI-supported learning systems, digital tutors, virtual influencers, LLM-based writing and assessment tools, engagement, flow, anxiety, perceived usefulness, trust, and behavioral intention.

EDUCATION

M.S. in Linguistics, National University of Defense Technology Sept. 2024 -- Present

- Research focus: **Human-AI Interaction**, Educational Technology, and AI-supported learning systems *Changsha, China*
- Average mark: 84/100; published/accepted 3 SSCI Q1 papers and 3 EI-indexed conference papers.

B.S. in Linguistics, Henan University Sept. 2020 -- Jun. 2024

- GPA: 3.7/4.0; ranked in the top 2%; recommended for graduate study without entrance examination *Kaifeng, China*

Economics Track, Henan University Sept. 2019 -- Jun. 2020

- GPA: 3.7/4.0; ranked in the top 1%; scored 90+ in Management, Microeconomics, Accounting, Linear Algebra, and Advanced Mathematics *Kaifeng, China*

RESEARCH INTERESTS

- **Human-AI Interaction:** user-centered evaluation of AI-mediated systems; trust, engagement, flow, and technology acceptance.
- **AI Learning Agents:** LLM-based learning agents, digital tutors, virtual influencers, AI lecturers, and adaptive feedback.
- **Methods:** behavioral experiment design, questionnaire construction, systematic review, bibliometric review, and empirical user research.
- **AI/NLP Systems:** prompt interaction, AI-assisted writing, NLP/LLM-based assessment, neural machine translation, and low-resource NLP.

HCI-RELEVANT RESEARCH EXPERIENCE

AI-Mediated Learning and User Experience Research 2024 -- Present

- Designed and synthesized empirical research on generative-AI-powered virtual influencers, intelligent tutoring agents, digital tutors, and LLM-supported writing/assessment tools.
- Evaluated AI systems through user-centered constructs including engagement, flow state, trust, perceived usefulness, anxiety, and behavioral intention.
- Built experience in behavioral study design, questionnaire construction, systematic review, bibliometric review, and interdisciplinary academic writing.

Funded Research Projects, National University of Defense Technology 2021 -- Present

- Participated in projects funded by the National Social Science Fund, the Science and Technology Commission of the Central Military Commission, and the Ministry of Education Industry-University Cooperation and Collaborative Education Project.
- Contributed to literature review, research material organization, document preparation, and academic writing in language intelligence and translation technology projects.

TEACHING AND SERVICE

Teaching Assistant, College English, National University of Defense Technology Sept. 2024 -- Present

- Supported a public course for over 200 non-English majors; graded and recorded exams; summarized common student errors to support course improvement.

Administrative Assistant, Department of Foreign Languages, NUDT Jan. 2025 -- Present

- Supported academic records, departmental events, teaching seminars, academic lectures, and English competitions.

SKILLS & HONORS

- **Research Methods:** behavioral experiment design, survey/questionnaire design, systematic review, bibliometric review, user-centered evaluation.
- **Evaluation Constructs:** engagement, flow, anxiety, trust, perceived usefulness, satisfaction, behavioral intention, technology acceptance.
- **AI/NLP Domains:** LLM-based learning agents, digital tutors, prompt engineering, AI-assisted writing, NLP-based assessment, NMT.
- **Honors:** First-class Scholarship, Academic Scholarship, Start-up Scholarship, Outstanding Graduate of Henan University.
